TWISTER®
WEATHERPROOF WIRE CONNECTORS

- Complies to AS/NZS IEC 60998.1 and AS/NZS IEC 60998.2.4 Standards

- IP68 Rated

- 100% Silicone-based sealant protects against moisture and corrosion

- Easy to apply, pre-filled twist-on wire connectors

- Tough, UL 94V-2 flame-retardant shell rated at 105°C

- For use in damp/wet locations

Applications

- Industrial/processing applications
- Outdoor lighting and signage
- Outdoor power outlets
- Deck and patio lighting
- Pool filters and pumps
- Basement, garage and car-port circuits
- Bathroom/spa vent fans
- Security systems and lighting
- Irrigation systems
- Corrosive environments
- High dust environments
- Coastal areas

Landscape Lighting

Irrigation & Sprinkler Systems

Processing Plants

Marine Shore Power & Dock Lighting

TWISTER®
WEATHERPROOF WIRE CONNECTORS

IDEAL® Twister® WeatherProof Wire Connectors are designed for interior/exterior connections exposed to damp/wet and corrosive environments, rated to IP68 (resistant to submersion up to a maximum depth of 1.8m (6ft) underwater for up to thirty minutes).

Durability: These harsh-duty wire connectors have been designed specifically to handle wire connections exposed to damp/wet conditions.

Performance: Each connector is pre-filled with a long-lasting, 100% silicone sealant that protects your electrical connections from the most severe environments.

Cost Savings: They save you time and money, too. With other connectors, you have to use heat shrink, resin packs, multi-step corrosion kits, or caulk and tape to protect your electrical connections from moisture and corrosion. Our pre-filled connectors eliminate these costly, time-consuming steps and give you maximum protection with just a few simple twists.

100% silicone sealant

Thick thermoplastic shell for extreme durability

Live-action square-wire spring for secure and long-lasting connections

Fixed end cap secures sealant and protects connection
